

OPTIVIR CRM • COMPLETE STEP-BY-STEP OPERATING MANUAL

EVERY FUNCTIONALITY EXPLAINED FOR NON-TECHNICAL T

A friendly, click-by-click handbook for agency founders, account managers, media buyers & finance staff

Zero Tech Jargon

Click-by-Click Steps

Visual UI Architecture

Real Numbers & Examples

SECTION

1. WHAT IS OPTIVIR CRM? (THE DIGITAL AGENCY OFFICE)

Think of it as your agency's complete digital office building

THE CENTRAL OPERATING SYSTEM FOR PERFORMANCE AGENCIES

Imagine if your sales address book, price quote generator, 24-step client onboarding checklist, Facebook/Google ad monitors, billable hours stopwatch, and GST tax cash register were all united on one clean, beautiful screen.

That is OptiVir CRM. It is built specifically for service agencies (marketing, advertising, web design, and consulting). It helps you capture leads, send official price quotes, welcome clients without confusion, track work hours down to the second, verify advertising return on investment (ROAS), and collect payments without friction.

SECTION

2. WHY DO WE USE IT? (THE HEADACHES IT SOLVES)

No more lost emails, forgotten tasks, or free out-of-scope work

THE OLD MESSY WAY (CHAOTIC & STRESSFUL)

Inquiries lost in WhatsApp chats, 10 different Excel sheets, untracked extra hours, misplaced client passwords, delayed invoices, and guessing ad profitability.

THE OPTIVIR WAY (CALM & HIGH-MARGIN)

Every client has 1 central folder, deals advance on a visual Kanban board, work hours are timed with a live stopwatch, ad ROAS is verified, and GST invoices are 1-click.

SECTION

3. DAILY OPERATING SCHEDULE: WHEN TO USE WHICH TOOL

Quick reference for your everyday work routine from 9:00 AM to 6:00 PM

TIME / TRIGGER	WHAT YOU DO IN OPTIVIR CRM	MODULE SCREEN
09:00 AM • Morning Check-In	Open Management Dashboard & My Workspace to review meetings and due deliverables.	Dashboard
When an Inquiry Arrives	Go to Leads. Record contact info, company name, and budget. Qualify with BANT.	CRM > Leads
Pitching & Quoting Prices	Open Proposals. Select service modules, calculate taxes, and email the official PDF.	Sales > Proposals
When a Deal is Signed	Drag deal card to "Closed Won". The system automatically launches 24-step onboarding.	Onboarding
Working on Client Tasks	Click "Start Focus" on the live top-bar Stopwatch to record billable minutes.	Projects > Tasks
Reviewing Ad Results	Open Marketing to verify Blended ROAS and channel metrics across Meta and Google.	Marketing
Month-End Invoicing	Open Finance. Generate an 18% GST invoice (9% CGST + 9% SGST) and record bank UTR.	Finance

UI ARCHITECTURE

VISUAL UI BLUEPRINT I: GLOBAL APPLICATION SHELL & LAYOUT WIREFRAME

Pixel-level architectural blueprint of OptiVir CRM's responsive two-column cockpit

DESIGN SYSTEM

VISUAL LAYOUT ANATOMY & INTERACTION RULES

Three structural design principles powering maximum operational clarity

1. PERSISTENT COMMAND TOPBAR

Unified top control bar housing Omnisearch (Ctrl+K), global date/team filters, unread alert bell, instant "+ New" quick-create drawer, and the team role simulator.

2. CONTEXTUAL 256PX SIDEBAR

Structured two-level hierarchy grouping 14 modules into Command, Sales, Operations, Delivery, and Finance. Active routes display high-visibility crimson accent pills.

3. THE 70/30 SPLIT PRODUCTIVITY VIEWPORT ARCHITECTURE

OptiVir CRM strictly eliminates modal switching fatigue by employing a standardized 70/30 viewport ratio across complex screens:

- Primary Focus Canvas (70%): Houses high-density execution surfaces (Drag-and-drop Kanban boards, SOW proposal builder, A4 invoice editors, and campaign telemetry charts).
- Telemetry & Context Panel (30%): Houses secondary operational tools (Live billable stopwatch, deliverable checklists, activity streams, and credential copy buttons).

This split-screen paradigm allows media buyers and account managers to execute core deliverables without ever losing sight of their daily agenda or billable timer.

DATA LIFECYCLE

VISUAL UI BLUEPRINT II: 14-MODULE ECOSYSTEM & DATA LIFECYCLE FLOW

How data flows seamlessly across all 14 modules from initial lead capture to bank settlement

END-TO-END OPERATIONAL DATA PIPELINE (7-STAGE FLOWCHART)

DATA INTEGRITY

ENTITY CASCADE & DATA RELATIONSHIP MATRIX

How each business entity inherits and cascades data to the next operational phase

OPERATIONAL ENTITY	KEY FIELDS INHERITED & STORED	DOWNSTREAM BUSINESS EFFECT
Inbound Lead	First Name, Email, Phone, Source, Budget (±1.5L)	Validates BANT fit (Budget, Authority, Need, Timeline).
Company & Contact	Legal Entity Name, 15-Digit GSTIN, Stakeholder Title	Forms the legal backbone for compliant tax billing.
Deal Opportunity	Contract Value, Pipeline Stage, Closing Target Date	Generates weighted cashflow forecasts for executive planning.
Onboarding Dossier	24 Step Status, Platform Logins, Looker Studio URL	Ensures zero dropped handoffs from sales to account teams.
Delivery Task	Estimated Hours, Due Date, Live Stopwatch Minutes	Credits billable execution time against contracted retainers.
Tax Invoice	SAC 998311, 9% CGST + 9% SGST, Total Due (±1.18L)	Computes audit-ready tax ledgers and dispatchable A4 PDFs.
Payment Settlement	Bank Transaction UTR, Payment Date, Cashflow Balance	Instantly turns invoice green ("PAID") and reconciles runway.

SECTION

CHAPTER 1: TOP NAVIGATION & COMMAND TOOLS (HOW TO USE THEM)

Global remote controls permanently accessible from every screen in the system

HOW TO USE: 1.1 GLOBAL OMNISEARCH (CTRL + K)

KEYBOARD SHORTCUT: CTRL+K / CMD+K

- 1. Press Ctrl + K (Windows) or Cmd + K (Mac) on your keyboard from ANY page in the CRM.
- 2. Type any 2 or 3 letters of a client name, invoice number, or task title (e.g. "Apex" or "INV-001").
- 3. A dropdown list appears instantly showing matched records categorized by type (Clients, Invoices, Tasks).
- 4. Press Enter or click the matching record to jump directly into that screen. Press Esc to close.

HOW TO USE: 1.2 QUICK CREATE MENU (+ NEW BUTTON)

TOP HEADER > CLICK RED "+ NEW" BUTTON

- 1. Click the red "+ New" button in the top right header (or black "+ Create" on Dashboard).
- 2. A menu drops down with 3 options: "Create Lead", "Create Opportunity", or "Generate Invoice".
- 3. Click your desired option, fill in the popup modal form, and click Submit.
- 4. Your new record is saved into the database immediately without leaving your current work screen.

1.3 DATE RANGE FILTER (CALENDAR)

Click the Calendar button in the top right. Select "This Month", "Previous Month", "Q4 FY2026", or "Year to Date". All dashboard revenue, ad spend, and hours instantly recalculate.

1.4 DEPARTMENT & TEAM FILTER

Click "All Teams" next to Date. Filter between Revenue Team (sales/deals), Marketing (media buyers/ROAS), Engineering (dev/pixels), or Operations (invoices/billing).

1.5 EXPORT CONSOLE (DOWNLOADS)

Click the Export button to download: 1) Master Tutorial Guide (PDF), 2) Architecture Structure PDF, or 3) Print Live Dashboard cleanly without browser clutter.

1.6 DARK / LIGHT THEME SWITCHER

Click the Moon/Sun icon in the top header. Switch instantly between Clean Studio Light (#FFFFFF) for daylight and Executive Dark Navy (#0A121F) for night.

HOW TO USE: 1.7 TEAM PERSONA SIMULATOR (ROLE SWITCHER)

TOP HEADER > CLICK USER AVATAR PILL

- 1. Click the user avatar pill in the top right header to preview the CRM through different employee roles.
- 2. Select Marcus Vance (CEO/Ops Lead) to inspect profit margins, bank collections, and executive alerts.
- 3. Select Alex Morgan (Sales Director) for pipeline quotas; Rahul Menon (Delivery Lead) for tasks; Maya Joseph (Media Buyer) for ad spend & ROAS.
- 4. Workspace permissions and viewports adapt immediately to that role's security policies.

SECTION

CHAPTER 2: THE 5 COMMAND DASHBOARDS (HOW TO USE EACH)

Directly below the top greeting, click the 5 perspective buttons to switch departmental views

2.1 MANAGEMENT DASHBOARD & THE OPERATIONAL FRICTION BAR (SMOKE DETECTOR)

- For: Founders, Managing Directors, and Operations Leads.
- How to use: Click "Management Dashboard". Review the 4 North Star cards (Total Revenue, Active Retainer Clients, Pipeline Leads, Deal Velocity).
- Resolving Friction: Look at the Friction Banner directly below the buttons. If GREEN, the agency is running smoothly. If it turns RED, alerts have fired! Click the red alert pills (Overdue Tasks, Unpaid Invoices, or Stale Leads > 24h) to jump straight to the blocked deliverables and resolve them immediately.

2.2 SALES DASHBOARD (PIPELINE & WEIGHTED FORECASTING)

- For: Sales Reps, Account Executives, and Sales Directors.
- How to use: Click "Sales Dashboard". View Total Active Pipeline and the Weighted Cashflow Forecast Formula:
Weighted Forecast = Sum of (Deal Contract Value × Stage Probability Percent)
(e.g., a \$10,00,000 deal in Proposal Sent at 60% probability contributes \$6,00,000 to the quarter's expected cashflow).
- Advancing Deals: In the deals table at the bottom, click the red action button on the far right to advance deals to final review or closed won.

2.3 MARKETING DASHBOARD (AD SPEND, SALES & BLENDED ROAS)

- For: Media Buyers, Growth Marketers, and CMOs.
- How to use: Click "Marketing Dashboard". Check the 4 core metrics: Total Ad Spend, Attributed Sales, Blended ROAS (Sales ÷ Spend), and Cost Per Lead (CPL).
- Comparing Channels: Scroll down to the Channel Matrix table. Compare the ROAS Multiple column for Meta vs. Google. If Meta shows 5.2x and Google shows 1.8x, advise your media buyer to shift 20% of Google's budget to Meta to maximize total agency-managed revenue.

2.4 FINANCE DASHBOARD (COLLECTIONS, AR AGING & RUNWAY)

- For: Agency Owners, CFOs, and Accountants.
- How to use: Click "Finance Dashboard". Review Net Collections (actual deposited bank cash) and AR Overdue (late client payments).
- Runway Formula: Cash Reserves ÷ Monthly Overhead Burn (Salaries + Office Rent). Shows exact survival months.
- AR Aging Brackets: Current (<30d) is green; 31–60d triggers polite reminders; >90d flags critical collection risk to pause ad accounts.

2.5 MY WORKSPACE DASHBOARD (DAILY DESK & LIVE STOPWATCH)

- For: Every single team member as their personal morning cockpit.
- How to use: Click "My Dashboard". Review "My Day: Today" on the left for scheduled client calls and internal sprint standups. On the right, work through the "My Deliverable Checklist". As you finish each deliverable, click its checkbox to turn it green. Use the live stopwatch to time your work.

SECTION

CHAPTER 3: SALES & CRM MODULES (LEADS TO PROPOSALS)

Convert incoming inquiries into paying retainer clients through a structured pipeline

HOW TO USE: 3.1 CREATE & QUALIFY LEADS

LEFT SIDEBAR > CLICK LEADS > CLICK "+ ADD LEAD"

1. Click the blue "+ Add Lead" button in the top right corner of the Leads screen.
2. Fill in Lead Name (Rohan Verma), Company Name (Apex Apparel), Work Email, and Mobile Phone.
3. Select Lead Source (Website Form, Meta Lead Ad, Google PPC, LinkedIn, or Referral) and enter Estimated Budget (₹1,50,000/mo).
4. Verify BANT criteria (Budget, Authority, Need, Timeline) and click "Save Lead" to add the prospect to your active leads list.

HOW TO USE: CONVERT LEAD TO OPPORTUNITY

LEADS TABLE > CLICK LEAD ROW > CLICK "CONVERT TO DEAL"

1. Open the lead record after completing your initial discovery phone call.
2. If the prospect confirms interest in receiving a formal proposal, click the green "Convert to Deal" button.
3. The system automatically creates a Company profile, Contact profile, and places a Deal Card on your visual Sales Pipeline!

3.2 COMPANIES (ACCOUNTS DIRECTORY)

Stores registered legal business entities (e.g. Apex Apparel Pvt Ltd), 15-digit GSTIN tax ID (e.g. 27AABCU9603R12M), HQ address, website URL, and linked invoices.

3.3 CONTACTS (CLIENT ADDRESS BOOK)

Stores individual human decision-makers (e.g. Sneha Patel, Marketing VP) with direct mobile phone number, personal email, and LinkedIn profile URLs.

SECTION

3.5 DEAL PIPELINE KANBAN (VISUAL DRAG-AND-DROP)

Track deals from first call to signed contract across 5 probability stages

1 Stage 1: Discovery (20%) "" Stage 2: Audit & Strategy (40%)

Drag card from Discovery to Audit after strategy call. Media buyer analyzes historical ad accounts to find wasted spend.

DISCOVERY / AUDIT

2 Stage 3: Proposal Sent (60%) "" Stage 4: Negotiation (80%)

Deliver formal quote and SOW. Weighted forecast updates. Drag to Negotiation while legal terms and scope are reviewed.

PROPOSAL /
NEGOTIATION

3 Stage 5: CLOSED WON (100% Probability) — AUTOMATIC TRIGGER!

When contract is signed, drag card to Closed Won. AUTOMATIC TRIGGER: System launches the 24-Step Onboarding Engine!

CLOSED WON 0<8%

HOW TO USE: 3.6 CREATE & SEND PROPOSALS (PRICE QUOTES & SOWS)

LEFT SIDEBAR > CLICK PROPOSALS > CLICK "+ NEW PROPOSAL"

1. Click "+ New Proposal", select Client Entity (Apex Apparel), and check services (Performance Media ₹1,00,000 + Video Creatives ₹50,000).
2. System auto-calculates taxable subtotal (₹1,50,000) and sets 14-day validity. Click "Generate Proposal PDF" to download signed contract.

SECTION

CHAPTER 4: CLIENT SUCCESS, ONBOARDING & CREDENTIAL VAULT

Welcome new clients flawlessly through a standardized 4-phase onboarding blueprint

4.1 ACTIVE CLIENTS & HEALTH SCORES

Ø=ßâ Green (80-100%): Happy client, high ROAS, invoices paid on time.
Ø=ßá Yellow (50-79%): Needs attention, deliverable close to deadline.
Ø=Ý4 Red (<50%): High churn risk! Founder/Lead should reach out immediately.

4.2 CLIENT 360° (8 DEDICATED TABS)

Master binder with 8 tabs: 1. Overview, 2. Campaign Telemetry (ROAS graphs), 3. Projects, 4. Timesheet Summary, 5. Invoices Ledger, 6. Credential Vault, 7. Document Vault, 8. Activity Stream.

SECTION

4.3 THE 24-STEP ONBOARDING BLUEPRINT (4 PHASES)

Guarantees your team welcomes every client without chaos or missing logins

1

Phase 1: Kickoff & Alignment (Steps 1 – 6)

Check off Step 1 (Assign Account Manager), Step 2 (Send Welcome Packet), Step 3 (Schedule 60-min Discovery Call), Step 4 (Align on ROAS Targets), Step 5 (Create Slack Channel), Step 6 (Set Calendar).

PHASE 1

2

Phase 2: Assets & Access Collection (Steps 7 – 12)

Request Meta Business Manager partner access, link Google Ads Customer ID (CID), collect Shopify logins, and save all passwords securely in the Credential Vault. Download vector logos and brand fonts.

PHASE 2

3

Phase 3: Technical Setup & Pixel Audit (Steps 13 – 18)

Install Meta Conversions API (CAPI), configure Google Tag Manager (GTM), test GA4 e-commerce purchase tracking events, connect real-time Looker Studio reporting, and upload product catalog feed.

PHASE 3

4

Phase 4: Launch & Graduation (Steps 19 – 24)

Produce first 8 video ads, write high-converting copy, obtain client sign-off, publish ads live, complete 72-hour spend audit, and click green "Graduate to Active Client" button to begin regular monthly servicing.

GRADUATE

HOW TO USE: 4.4 THE CREDENTIAL VAULT (SAFE PASSWORD LOCKER)

1. Open the client's folder, click the Credential Vault tab, and click "+ Add Credential".
2. Select platform (Meta Business Manager, Google Ads CID, or Shopify Admin) and input username and password.
3. The password is encrypted with AES-256 standards. Teammates click "Copy" to use credentials safely without exposure in chats.

CLIENT 360° > CLICK "CREDENTIAL VAULT" TAB > CLICK "+ ADD CREDENTIAL"

SECTION

CHAPTER 5: DELIVERY, PROJECTS & TIME TRACKING

Organize deliverable milestones and track work hours to protect agency profit margins

HOW TO USE: 5.1 CREATE & MANAGE PROJECTS (DELIVERY MILESTONES)

LEFT SIDEBAR > CLICK PROJECTS > CLICK "+ NEW PROJECT"

1. Click "+ New Project". Enter Project Title (e.g. Apex Apparel - Diwali Festive Blitz).
2. Select Client, enter Start Date and Target Launch Date.
3. Add key milestones: Milestone 1 (Creative Scripts Approved), Milestone 2 (16 Videos Rendered), Milestone 3 (Campaign Live).
4. Click "Save Project". Milestones automatically sync to the agency master delivery calendar.

HOW TO USE: 5.2 CREATE & ASSIGN TASKS (OPERATIONAL CHECKLISTS)

LEFT SIDEBAR > CLICK TASKS > CLICK "+ NEW TASK"

1. Click "+ New Task". Write an action title (e.g. "Design 4 Instagram Reel Ad Variants").
2. Select Client (Apex Apparel), assign team member (Maya Joseph), and set Estimated Duration (3.5 Hours).
3. Set Priority: Urgent (Due today / ad budget blocked), High (Due in 48h), or Normal (Standard weekly deliverable).
4. Click "Save Task". The item immediately appears in that team member's My Workspace checklist.

SECTION

5.3 THE LIVE BILLABLE STOPWATCH (CLICK-BY-CLICK OPERATING STEPS)

Track execution time down to the second to protect agency margins from unpaid scope creep

Step 1: Click "Start Focus" When You Begin Work

- 1** Look at the top bar or open My Workspace. Click "Start Focus" (or the Play icon). The timer begins counting seconds in real-time as you execute.

START TIMER

Step 2: Click "Pause" for Breaks or Meetings

- 2** If you pause for lunch, coffee, or attend an internal agency standup, click "Pause". The timer freezes your elapsed minutes until you return.

PAUSE

Step 3: Click "Stop & Log" to Credit Hours to the Retainer

- 3** When finished, click "Stop & Log". A popup confirms: "Logged 2 Hours 15 Minutes". Type a brief note ("Rendered 4 video hook variants") and click Save.

LOG HOURS

WHY THE STOPWATCH GUARDS AGENCY PROFIT (SCOPE CREEP PROTECTION)

When clients ask for "just one quick extra banner", agencies often execute it without billing. Over a year, this costs agencies hundreds of unbilled hours. OptiVir CRM couples every task with an active stopwatch so that every minute is recorded against client retainer agreements. If client demands exceed contracted hours, timesheets provide indisputable proof for retainer expansion.

SECTION

CHAPTER 6: PERFORMANCE MARKETING & AD ATTRIBUTION

Monitor advertising return across Facebook, Instagram, Google, and TikTok

- 1

Inspect the Top 4 Marketing Numbers Daily

Open the Marketing tab. Review: 1) Total Ad Spend (money spent across platforms), 2) Attributed Revenue (sales generated), 3) Blended ROAS (revenue multiplier), and 4) Cost Per Lead (CPL).

MARKETING

- 2

Mastering the ROAS Formula (Return on Ad Spend)

ROAS equals Attributed Revenue divided by Total Ad Spend. Example: If you spend \$20,000 on Facebook Ads and generate \$1,00,000 in sales, that is a 5.0x ROAS! Anything above 3.5x is very profitable for e-commerce.

ROAS FORMULA

- 3

Compare Meta vs. Google Channels to Allocate Budget

Scroll down to the Channel Matrix table. Look at the ROAS Multiple column. If Meta shows 5.4x ROAS and Google shows 2.1x ROAS, advise your client to shift 20% of Google budget to Meta to maximize total sales.

ATTRIBUTION

SECTION

6.2 CHANNEL ATTRIBUTION MATRIX & MARKETING UNIT ECONOMICS

Actionable steps to evaluate Cost Per Lead (CPL) and Customer Acquisition Cost (CAC)

HOW TO USE: REALLOCATE BUDGETS BY CHANNEL ROAS

MARKETING TAB > CHANNEL ATTRIBUTION MATRIX

1. Review the Blended ROAS column for Meta Ads, Google Ads, and TikTok Ads.
2. Identify the top-performing network (e.g. Meta at 5.4x ROAS vs. Google at 2.1x).
3. Advise the client to shift 20% to 30% of ad spend from lower ROAS channels to the highest-performing channel.
4. Verify conversion tracking in Onboarding Phase 3 to ensure purchase events are registering accurately.

COST PER LEAD (CPL)

Total Ad Spend divided by verified customer inquiries. Example: \$10,000 spend ÷ 50 phone calls = \$200 CPL. Keep CPL below client margin targets.

CUSTOMER ACQUISITION COST (CAC)

Total ad spend plus agency retainer divided by new paying buyers. Tracks true customer acquisition economics across the agency.

META ADS (INSTAGRAM & FB)

Best for visual e-commerce, D2C fashion, lifestyle, and impulse shopping. High visual engagement and dynamic product catalog ads.

GOOGLE SEARCH ADS (INTENT)

Best for high-intent immediate inquiries (dental clinics, emergency repair, enterprise software). Higher cost-per-click but ready-to-buy users.

SECTION

CHAPTER 7: FINANCE, INVOICING & GETTING PAID

Generate compliant Indian & global tax invoices, download PDFs, and record settlements

HOW TO USE: 7.1 CREATE AN INVOICE WITH 18% GST

LEFT SIDEBAR > CLICK FINANCE > CLICK INVOICES > CLICK "+
CREATE INVOICE"

1. Click "+ Create Invoice" in top right. Select Client (Apex Apparel). Issue date defaults to today; set due date to Net 15.
2. Select Service Package (Monthly Performance Retainer). SAC Service Code 998311 auto-fills.
3. Enter agreed fee (₹1,00,000). System auto-adds 9% CGST (₹9,000) + 9% SGST (₹9,000) or 18% IGST for interstate clients.
4. Total Amount Payable computes to ₹1,18,000. Click "Save & Issue Invoice".

HOW TO USE: 7.2 DOWNLOAD THE OFFICIAL A4 VECTOR PDF INVOICE

INVOICES TABLE > CLICK "VIEW INVOICE" > CLICK "DOWNLOAD PDF"

1. Find your invoice row in the table and click "View Invoice".
2. An official A4 invoice modal appears with agency letterhead, client GSTIN, SAC code, and bank wire details.
3. Click "Download PDF". A native vector PDF downloads to your computer, ready to email to client finance.

HOW TO USE: 7.3 RECORD BANK WIRE PAYMENT (MARK AS PAID)

INVOICES TABLE > CLICK "RECORD PAYMENT"

1. When client transfers money into your bank account, click "Record Payment" next to that invoice.
2. Select payment method (Bank Wire NEFT/RTGS/IMPS or UPI) and type in the bank transaction UTR Number (e.g. UTR9823411209).
3. Enter amount received (₹1,18,000) and click "Confirm Settlement". Invoice badge turns green ("PAID"), and cashflow reconciles!

SECTION

FINANCIAL METRICS: A/R AGING & OPERATING RUNWAY

Track outstanding payments and calculate agency survival runway

1

Monitor Accounts Receivable Aging Buckets

Inspect Finance > Accounts Receivable. Current (<30d) is green; 31–60d triggers automated payment reminders; >90d flags critical collection risk.

A/R AGING

2

Calculate Operating Runway (Cash Reserves ÷ Burn)

Runway formula: Total Cash in Bank divided by Monthly Overhead (Rent + Payroll). Example: ₹36L reserves ÷ ₹6L burn = 6.0 Months of Runway.

RUNWAY

TAX INVOICE CALCULATION BREAKDOWN (GST COMPLIANCE)

- Service Description: Digital Marketing & Creative Production Services • SAC Code: 998311
- Taxable Subtotal: ₹1,00,000 • Central GST (CGST @ 9%): ₹9,000 • State GST (SGST @ 9%): ₹9,000
- (For out-of-state clients: Integrated GST @ 18% = ₹18,000) • Total Amount Payable: ₹1,18,000
- Invoices clearly display agency bank name, account number, IFSC code, and registered GSTIN.

SECTION

CHAPTER 8: OPERATIONS, CALENDAR, DOCUMENTS & REPORTS

Day-to-day administrative execution, encrypted document storage, and executive reporting

HOW TO USE: 8.1 ACTIVITIES & UNIFIED 4-STREAM CALENDAR

LEFT SIDEBAR > CLICK ACTIVITIES

1. Review aggregated calendar streams: Ø=Ý5 Blue (client review meetings), Ø=Ý4 Red (task deadlines), Ø=ßâ Green (invoice due dates), and Ø=ßá Yellow (retainer renewals).
2. Click "+ New Event" to schedule a client meeting or internal sprint review. Enter title, select client, pick time, and click Save.
3. The meeting syncs directly to the assigned account manager's My Workspace desk.

HOW TO USE: 8.2 DOCUMENTS VAULT (SHA-256 TAMPER-PROOF STORAGE)

LEFT SIDEBAR > CLICK DOCUMENTS

1. Click "+ Upload Document" to store signed Master Service Agreements (MSAs), NDAs, tax certificates, or client vector brand logos.
2. Drag and drop your file, select Document Category (Contract, Proposal, Tax Certificate, Brand Asset), and choose the Client Entity.
3. Every file is saved with tamper-proof SHA-256 verification hash. You can preview, verify, or download it anytime.

HOW TO USE: 8.3 EXECUTIVE REPORTS & AUTOMATED QBR DOSSIERS

LEFT SIDEBAR > CLICK REPORTS

1. Click "Generate Report", select Client (Apex Apparel) and billing month (e.g. October 2026).
2. The system automatically compiles: completed deliverables, logged stopwatch hours, total ad spend, attributed revenue, and ROAS graphs.
3. Click "Export Executive Dossier" to download a clean, branded PDF report ready to present to the client's CEO!

HOW TO USE: 8.4 NOTIFICATIONS HUB & ALERT CENTER

LEFT SIDEBAR > CLICK NOTIFICATIONS (OR BELL ICON IN TOP HEADER)

1. Look at the Bell icon in the top header. An orange badge indicates unread action items.
2. Click the Bell icon for the quick slide-out panel, or click "View All Notifications" to open the full hub.
3. Filter alerts by: Milestones (signed deals), Finance (paid or overdue invoices), or Tasks (assignments). Click "Mark All as Read" to clear.

THE OPERATIONAL BACKBONE OF HIGH-RETENTION AGENCIES

Agencies lose clients when communication drops or deadlines slip unnoticed. OptiVir CRM centralizes calendar meetings, legal contracts, executive performance reports, and real-time alerts so that every client interaction is documented, professional, and audit-ready.

SECTION

CHAPTER 9: THE 30-DAY APEX APPAREL REAL-WORLD JOURNEY

How a performance agency executes everyday operations inside OptiVir CRM from lead to cash

COMPLETE CASE STUDY: INBOUND LEAD TO PAID INVOICE

- Day 1 (Inbound Lead): Prospect Rohan Verma submits inquiry. Sales rep calls within 20 mins. Budget: ₹1.5L/mo. Qualified!
- Day 3 (Proposal Sent): Rep converts lead to Deal, opens Proposals, checks services, and emails PDF quote for ₹1,50,000 + GST.
- Day 7 (Closed Won!): Client signs. Rep drags card to Won. 24-step onboarding checklist launches automatically!
- Day 8-10 (Onboarding): Kickoff held (Phase 1), logins saved in Vault (Phase 2), CAPI installed (Phase 3), ads launched (Phase 4).
- Day 12-26 (Execution): Designer Maya clicks "Start Focus" on stopwatch, logging 28 hours creating 16 festive video ads.
- Day 28 (Marketing): Marketing tab shows: ₹18.5 Lakhs spent, ₹89.7 Lakhs in sales (4.85x ROAS!). Client is thrilled.
- Day 30 (GST Billing): Finance issues invoice with 9% CGST + 9% SGST (Total: ₹1,77,000). Client pays via RTGS. Invoice marked PAID!

SECTION

CHAPTER 10: TROUBLESHOOTING & FIXING COMMON MISTAKES

Clear answers to the most common questions non-technical staff ask

COMMON QUESTION / ISSUE	HOW TO FIX IT IN OPTIVIR CRM
Q1: Forgot to stop timer	Open My Workspace > Recent Time Entries. Click Edit pencil, change duration, and click Save.
Q2: 0.0x ROAS in Marketing	Ad networks take 2–6h to sync purchases. Confirm Meta CAPI was verified in Onboarding Phase 3.
Q3: IGST vs CGST/SGST	Auto-detected from client GSTIN: Same state = 9% CGST + 9% SGST. Out-of-state = 18% IGST.
Q4: Friction Bar is Red	Click the red alert pill (Overdue Tasks or Stale Leads). Resolve the item to restore Green status.

SECTION

FOUR GOLDEN AGENCY HABITS FOR MAXIMUM PROFIT

Essential operational disciplines to keep your agency calm and high-margin

GOLDEN HABIT	WHY IT MATTERS TO YOUR AGENCY	OPERATIONAL BENEFIT
1. Log Work Real-Time	Record leads, tasks, and payments the moment they occur for real-time sync.	Real-Time Sync
2. Always Use Stopwatch	Run the timer during client tasks to prevent unbilled overtime and scope creep.	Profit Guard
3. Clear Friction Daily	Check the Red Friction Bar every morning before 10:30 AM to prevent backlog.	Zero Backlog
4. Standardize Legal Names	Use complete registered legal names and 15-digit GSTINs for audit-proof bills.	Audit-Proof
